RECEIVER FOR THE STOCKS DULL, BUT INTERNATIONAL

Jersey Court Directs George R. Beach to Take Charge of Big Mercantile Agency After Sheriff Leaves Attachment.

CLAIM IS PUT IN BY

Trouble Supposed to Be Due to During the final hour there was an Canadian Directors.

an attachment issued on the claim for \$24,220 made by the former President.

Thomas N. McCauley, is in more trouble o-day. On the application of Newell . Bloss, made through Grav McDermott & Enright, of No. 259 Washington street, Jersey City. Vice-Chancellor Lindley M. Garrison, of Jersey City, appointed George R. Beach, of that city, temporary receiver and in a sweepng order restrained the officers from exercising any of the privileges and franchises of the company until Sept. 6 next, when the matter will come up in the Court of Chancery for argument.

In the affidavit of the applicant Mr. Bloss states that the International Mercantile Company is insolvent, that its effects in the home office in New York have been seized in attachment and are now in possession of the Sheriff, that the company has been obliged to susthe company has been obliged to sus-pend its business and is without the funds or the credit necessary to resume prices or from last recorded sale are as folfunds or the credit necessary to resume lows: with safety to the public and advantage to its stockholders.

Because of this and the fact that th widely scattered assets of the compan are likely to be dissipated unless a re ceiver is at once appointed. as state the application is made.

The application of to-day was pre cipitated by Mr. McCauley's suit. M McCauley was formerly President of th company. The directors included som of the best-known New Yorkers an Canadians in the financial and com mercial worlds. Friction came whe the company, under Mr. McCauley guidance, was beginning to prosper.

Various causes have been assigned to the trouble, but the principal reason appears to have been jealousy between the American and Canadian director over which taction should dominate th company. In the end Mr. McCaule resigned and William C. Lane. Presi dent of the Standard Trust Company was elected President.

Mr. Lane is now in Europe. Before he went away he resigned, but his resignation was not accepted. It is un derstood that Mr. McCauley was asked to take the Presidency again, and was about to do so when he discovered tha during the period he was out of officithe running expenses of the company had been increased some \$25,000 or \$27,000 amonth.

had been increased some \$25,000 or \$27,000 a month.

He did not believe that the concern could prosper under such circumstances, and not only refused to take the Presidency but decided to press the claim for the balance of a loan of almost half a million dollars which he had made the company during the time he was the active head of it.

Some of the directors of the company are William R. Merriam, ex-Governor of Minnesota; Delos P. Phelps, former Assistant Treasurer of the United States; J. B. Foraker, jr., George W. Sadler and Edward L. Goold.

Ross M. Turner, who has been mentioned as a director of the agency, severed his connection with the concernover a year ago.

REFEREE DECIDES

In the matter of the Bar Association fraud, deceit and duplicity, and that now on of 900 bales.

Later a rally occurred and at the close

conduct and malpractice. The record of the proceedings begins with the agreement of Henry G. Ward. of counsel for the Bar Association. He says that the first allegation and charge relates to the bringing of a suit in Minnesota on Dec. 29, 1901, and the second was that the bill of complaint in that action contained the allegation that Peter Power had been for more than six months the holder of 100 shares of the common stock. The action was that of Peter Power against the North-ern Pacific Railroad Company.

Charge "A" is substantially that the defendant permitted and encouraged and acted upon the statement as to the ownership of stock, which was a necessary allegation, and that his testimony as to the custody of the certificate of stock was false. Charge "B" was that he at least consented to Power's failing to obey subpoenas, and furnished means to support him while he was in Canada, and out of the jurisdiction of the Court.

The case had been transferred from the Minnesota Court to the United States Court, and Judge Thomas issued a subpoens to Power to appear and testify, and later Judge Lacombe issued an order for him to show cause why he should not be punished for contempt of court.

Lamb came here from London at the age of nimeteen and two or three years later began the study of law while employed as the private secretary of Joseph & Auerbach. He was admitted to the Bar in 1897.

The present charges were brought last October. On Dec. 18 last the Appellate Division made an order appointing the referee. and acted upon the statement as to the

SHARP DECLINE IN COTTON

Market Opens Rather Poor, but Rally Occurs Later.

In view of the strong cables from Lavroool to-day the opening of the cotton market was rather poor. The pit expleined it on the theory that longs were selling out part of their holdings. The offerings of big blocks at the opening by several prominent recent buyers caused prices to decline rapidly.

Brokers who usually operate for Wall street sold freely and it was common talk that Price sent selling orders to New Orleans vesterday afternoon. The against George Alfred Lamb, George B. decline here was hastened by a report Abbott, the referee, reports that the that Houston was due to get about charges are proved and that the conduct of George Alfred Lamb savors of which would mean a daliv average from

of the first half hour prices passed the opening figure.

The opening prices were August 10.0 bid: September, 10.92 to 10.94; October 10.87 to 10.90: November, 10.88 to 10.90:

Cunard and Hamburg-America Officials Will Confer.

LONDON, Aug. 26.-A telegram from Liverpool to-day announced that Lord Inverced to-day announced that Lord Inverced Chairman of the Cunard line, and Herr Ballin. Director-General of the Hamburg-American line, will meet at Frankfort, Germany, Aug. 29, to try to settle the rate war.

Messrs. Ismay and Dawkins, representing the International Mercantile Marine Company, have been invited to attend the meeting.

Hyomei the Only Cure for Hay Fever

Gives Change of Climate in

Your Own Home. Prior to the discovery of the remarkable effects following the use of Hyomei, the only treatment that gave relief to hay fever sufferers was change of climate. The use of Hyomei enables any one to breathe air at home which is like that of the Adirondacks, the White Mountains or other health resorts where healing balsams fill the air with nature's

germ destroyer, ozone.

Those who are subject to hay fever should begin the use of Hyomei at once and thus prevent the disease.
Hegeman & Co., 200 Broadway, will cell Hyomel to any hay fever sufferer, with the understanding that if it does not give satisfaction the treatment will cost nothing. The Big Store Closes at 1 P. M. Saturday,
